## EXECUTIVE SUMMARY

The Michigan Family Independence Agency's (MFIA) on-going evaluation/monitoring of the Teen Parent Program began October 1, 1994. This document represents the first six-month update for FY 03-04 (i.e., October 2003 through March 2004) and is comprised of fifteen tables, highlights of which are presented below.

- During this six-month period, 631 new participants entered the program, with 13.3% of the participants being referred to the program by their local FIA offices.
- The race/ethnicity breakdown was as follows:
  - 63.1% African American
  - 29.2% White
  - 1.4% Other (multi-racial)
  - 5.6% Hispanic
  - 0.6% Native American
- Providers have the option of providing services to teen fathers. A number of sites have exercised this option, with males comprising 5.9% of the recently enrolled participants.
- The average age of this group of participants was 18.12 years.
- 95.8% of the participants were single.
- 49.8% of the participants were pregnant (or pregnant and parenting) upon entering the program, with 94.1% of those participating in prenatal care at that time.
- 57.8% of the teens were parenting (or pregnant and parenting), with 87.8% of them parenting one child, 11.3% parenting two children, and 0.8% parenting three children.
- On average, the highest grade completed by the teens was 10.0.
- At the time of entering the program (note, duplicate responses were possible: e.g., a person could be identified as being in GED training and school simultaneously),
  - 49.8% of the participants were enrolled in school.
  - 2.9% of the participants were GED holders.
  - 7.1% of the participants were enrolled in GED training.
  - 11.8% of the participants were high school graduates.
- 14.4% of the participants were employed at the time they entered the program, averaging 23.5 hours of work a week at an average hourly rate of \$6.56.
- 27.4% of the participants were not involved in education **or** employment activities at the time they entered the program.

# TEEN PARENT PROGRAM

## Fiscal Year 2004

### Six Month Update

#### October 2003 - March 2004

The Michigan Family Independence Agency's (MFIA) on-going evaluation/monitoring of the Teen Parent Program (TPP) began October 1, 1994. This document represents the first six-month update for FY 03-04. Specifically, the following tables summarize intake information about those individuals who entered the program during the **first** six months of fiscal year 2004, namely, October 2003 through March 2004.

The program continues to operate via contract with twenty-one sites (21) in eighteen (18) counties. The specific counties served by the program are Berrien, Calhoun, Chippewa, Clare, Genesee, Ingham, Jackson, Kalamazoo, Kent, Lake, Montcalm, Muskegon, Newaygo, Oakland, Ogemaw, Saginaw, Van Buren, and Wayne, which is home to four (4) sites.

## PART I: ENTRANCE INTO THE PROGRAM

**Table 1** presents the total number of participants who entered the teen parent program between October 1, 2003, and March 31, 2004. During this six-month period, 631 new participants entered the program.

**Table 1**

<sup>1</sup> In addition to these 631 new cases entering the program during the first six months of fiscal year 2004, there were 1,016 active carry-over/ongoing cases that were receiving services at the start of the fiscal year (i.e., cases that opened prior to October 1, 2003, and remained open as of the start of FY03-04). Source: Teen Parent Program Semi-Annual Monitoring Report (October 2003).

**Table 2** identifies the sources responsible for referring the participants to the program. Referrals received from the Family Independence Agency (FIA) were to be given top priority. As can be seen, 13.3% (84) of the referrals during this six month period were from the FIA. This was surpassed by referrals from: (a) some “other” source (see footnote, below, for details regarding “other” referral sources), which accounted for 36.7% (231) of the referrals, and (b) community agencies, which accounted for 17.5% (110) of the referrals. The remaining 32.5% (205) of the individuals were referred to the program by such sources as health care provider, public/community health, mental health agencies, and schools.

<sup>2</sup> "Other" responses given included the following: self, friend, relative, guardian, partner, another program participant, was a former program participant, social worker, mentor, TPP agency, court system (e.g., juvenile court, family court), juvenile facility, "Birth to Five" program, "Healthy Families," Hispanic Outreach, MSS/ISS, daycare provider, HUD outreach, community baby shower, yellow pages, brochure, the internet, group home, etc.

<sup>3</sup> Missing, in this and subsequent tables, refers to information that was unavailable at time of reporting.

## PART II: PARTICIPANT DEMOGRAPHICS

**Table 3** presents the racial/ethnic breakdown of participants entering the program during the first six months of fiscal year 2004. Accordingly, 63.1% (393) of the individuals were African American, 29.2% (182) were white, 5.6% (35) were Hispanic, and 0.6% (4) were Native American. The “other” responses served to identify nine individuals (1.4%) as multi-racial.

<sup>5</sup>For the first six months of FY04, there were thirteen cases for which information about age was missing. Meanwhile, for FY03, there were thirty-five cases for which information about age was missing.

**Table 7** displays the marital status of the participants. Accordingly, 95.8% (597) were single and 4.0% (25) were married. In addition, one participant (0.2%) was engaged.

Of the twenty-five individuals who were married, eighteen were white, four were African American, and two were multi-racial. In terms of age, four were seventeen years old, and nineteen were eighteen years old or older (with two cases missing information on age). In terms of gender, twenty-two were female and three were male.

In addition, the status of those parenting (or pregnant and parenting) may be further described in terms of the number of children they had at time of intake. These data are displayed in tables 8B and 8C. With respect to ages of the children, 76.2% (310) were one year or younger, 12.3% (50) were two years old, 7.6% (31) were three years old, 2.5% (10) were four years old, and 1.5% (6) were five years old or older.

According to **Table 8B**, 87.3% (275) of those parenting had one child, 12.1% (38) had two children, and 0.6% (2) had three children.

## **PART IV: EDUCATIONAL AND EMPLOYMENT STATUS**

**Tables 9 and 10** reveal the participants' educational and employment status at time of intake. Note that, on average, the highest grade completed by the participants upon entering the program was 10.0.

### **A. School**

The 302 individuals (49.8%) enrolled in school may further be described in the following manner:

- Twenty individuals were enrolled in both school and GED training.
- Seven individuals had a high school diploma.
- Thirty-six teens were working and going to school.
- On average, the highest grade completed by this group of individuals was 9.7.
- In terms of age, this group of individuals averaged 17.34 years, with 38.7% being sixteen years old or younger, 29.3% being seventeen years old, and 32.0% being eighteen years old or older.

The 305 individuals (50.2%) who were not enrolled in school may further be described in the following manner:

- Sixty-five teens had a high school diploma.
- Eighteen participants had a GED certificate.
- Twenty-three individuals were in GED training.
- Fifty-one teens were employed.
- On average, the highest grade completed by this group of individuals was 10.3.
- In terms of age, this group of individuals averaged 18.90 years, with 10.3% being sixteen years old or younger, 15.9% being seventeen years old, and 73.8% being eighteen years old or older.

Of the twenty-four participants for whom information about school enrollment was missing, twenty were similarly missing responses to the remaining questions regarding education and employment; three had a mix of negative and missing responses; and one had negative responses for the remaining questions.

### **B. GED Training**

Of the forty-three individuals in GED training, twenty were also in school and six were working. In terms of age, 11.6% were sixteen years old or younger, 25.6% were seventeen years old, and 62.8% were eighteen years old or older.

### **C. GED Certificate**

Eighteen individuals were identified as having a GED certificate, three of who were working.

### **D. High School Diploma**

The seventy-two individuals who had a high school diploma may further be described in the following manner:

- Seven teens were continuing their education.
- Twenty teens were working.

The 539 individuals who did not have a high school diploma may further be described in the following manner:

- 295 teens were enrolled in school.
- Forty-three teens were in GED training (including twenty who were also identified as being enrolled in school).
- Eighteen teens, while lacking a diploma, did have a GED certificate.
- Sixty-seven individuals, who lacked a high school diploma, were working at the time they entered the program.

---

For 173 individuals, or 27.4% of those who entered the program during the first six months of fiscal year 2004, negative responses were received for each question regarding education **and** employment. In other words, they were neither enrolled in school nor GED training, lacked a GED certificate or high school diploma, and were not employed. In terms of age, 17.4% of these individuals were sixteen years old or younger, 21.5% were seventeen years old, and 61.0% were eighteen years old or older.

For the eighty-seven teens employed at time of entry into the program, the average weekly hours worked was 23.5 and the average hourly wage was \$6.56. In addition, the average age of those employed was 18.70 years. Furthermore,

- Seventy-seven (88.5%) of those employed were females, representing 13.0% of the females entering the program during this six month period. Meanwhile, ten (11.5%) of those employed were male, representing 27.0% of the males entering the program.
- Twenty individuals had a high school diploma (three of who were also continuing their education).
- Three teens had a GED certificate.
- Six teens were in GED training, including one who was also enrolled in school.
- Thirty-six individuals were enrolled in school (three of who had a diploma).
- Twenty-six teens were working, but were not in school or GED training, nor did they have a diploma or GED.

The 518 individuals who were not working at time of program entry may further be described in the following manner:

- Of the teens not working, 263 were enrolled in school (including nineteen who were also in GED training, and four who had a high school diploma).
- Thirty-seven teens were in GED training (nineteen of who were also identified as being enrolled in school).
- Fifty-two individuals had a high school diploma (four of who were also continuing their education).
- Fifteen teens had a GED certificate.

## PART V: LIVING ARRANGEMENT

**Table 11**, on the following page, presents the participants' living arrangements upon entering the program. As indicated, 51.9% of the individuals who entered the program during the first six months of FY04 resided with their parent(s). This was followed by 12.4% living with other relative(s), and 11.3% living independently. The remaining 24.5% was scattered throughout the remaining available responses.

**Table 12**, on page 19, presents a breakdown of living arrangements in terms of age. For example, 72.8% of those teens aged sixteen years or younger were residing with their parent(s) upon entering the program. Meanwhile, 61.5% of those aged seventeen and 38.0% of those aged eighteen or older were living with their parents.

- All totaled, 95.3% of those teens aged sixteen or younger resided with a parent, legal guardian, other relative, or in formal placement. Similarly, 87.4% of those aged seventeen resided with a parent, legal guardian, other relative, spouse, or in formal placement.
- In Table 11 and Table 12, "other" responses given included living with: friend(s), partner's family's home without partner, parents and partner, parents and spouse, stepmother, domestic violence shelter, transitional living program, etc.
